Typical Cautions

- When the battery is worn out, insulate the terminals with tape before disposal.
- Immediately discontinue the use of the battery if, while using or storing the battery, the battery emits an unusual smell, feels hot, changes color, changes shape, or appears abnormal in any way. Contact Zebra Customer Service at +1 866 230 9494, if any of these problems are observed.
- In the event the pack leaks and the fluid gets into one's eye, do not rub the eye. Rinse well with water and immediately seek medical care.
- Do not charge the battery when the temperature exceeds 45° C (113° F).
- Do not store the battery at temperatures exceeding 60° C (140° F).

Good Practices

- When in use, ensure that the battery pack is locked into the printer.
- Store batteries at 25° C (77° F) at 30 percent to 50 percent of charge.
- Charge at least once per year.
- Replace battery only with the recommended Zebra battery. Use of another battery may present a risk of fire or explosion.

Typical Warnings

- Do not place in fire or heat the battery.
- Do not store or charge the battery in direct sunlight.
- Keep battery packs and chargers away from combustible materials.
- Do not install with polarity reversed.
- Do not short the battery across the terminals.
- Do not store or carry packs with metal objects.
- Do not pierce the pack with nails, hit with a hammer, or otherwise make strong impacts.
- Do not solder directly to the pack.
- Do not expose the battery to water, salt water, or allow it to get wet.
